

**PAPER REQUIREMENT
CERTIFICATE IN ENERGY,
INNOVATION AND
SUSTAINABILITY LAW**

Anticipated Degree Date

Name: _____ Home Phone: _____
(as it is to appear on certificate)

Address: _____ Work Phone: _____

Zip _____

PLEASE NOTE: PAPER MUST BE SEPARATE FROM THE 2 PAPERS REQUIRED FOR THE ENVIRONMENTAL & NATURAL RESOURCES CERTIFICATE IF APPLYING FOR BOTH CERTIFICATES.

List below the requested information regarding a paper written on an energy topic (one paper is required). The professor's signature is necessary to confirm completion of the requirement.

To qualify for an Energy, Innovation and Sustainability Law Certificate, among other things, students must also complete a substantial paper on a topic that relates to energy law or on a topic that combines energy law and business law concepts. This form is to certify that the student has written the required paper.

While the determination of what constitutes a "substantial" paper lies in the judgment of the faculty member, ordinarily a paper in a course that counts for more than half the course grade will qualify as a "substantial" paper.

It is presumed that papers in energy law courses would be on energy law topics. In other courses or for an individual research paper, paper topics also may be on energy law issues. Generally, the concept of energy, innovation and sustainability law has been broadly construed, but in case of doubt, feel free to seek advice from the Associate Dean of the environmental program.

Title of Paper: _____

Course: _____

Professor's Name: _____

Professor's Signature: _____

Date: _____
