

**PRACTICAL SKILLS REQUIREMENT
CERTIFICATE IN ENERGY,
INNOVATION AND
SUSTAINABILITY LAW**

Anticipated Degree Date

Name: _____ Home Phone: _____
(as it is to appear on certificate)

Address: _____ Work Phone: _____

Zip _____

List below is the requested information regarding the practical skills requirement for the Energy certificate. The professor/supervisor or employer signature is necessary to confirm completion of the requirement.

To qualify for an Energy, Innovation and Sustainability Law Certificate, among other things, a student must gain practical skills in energy law through one of more of the following: (a) taking a practical skills course with an energy focus (externship, legal practicum, or clinical work) for at least 3 credits; (b) through paid employment in the energy law field; or (c) through service learning or pro bono work on a project involving energy law. Students must complete at least 130 hours (the equivalent of a 3-credit externship) in their chosen practical skills option. Students can fulfill this requirement by doing more than one paid or unpaid job or project that cumulatively meet the hours requirement.

Students must obtain the prior approval of the Certificate Administrator to ensure the experience fulfills the practical skills requirement. This form is to certify that the student has completed the practical skills requirement.
